Fernanda Gomes

Front-end developer

Email: fernandapg82@gmail.com
Mobile Phone: (+47) 455.39.542
Oslo, Norge
Born, 1982

ABOUT ME

"Adult" developer who moved with his family from Italy to Norway in 2017, taught himself Norwegian and English before completing a 2 years vocational education as a Front-end developer in 2025 with grade A. Now I am participating in a further education program through Glasspaper Academy. Here I am sharpening my Front-end competence and acquiring additional skills within Back-end development, AI development and cloud solutions.

My technology stack is React, TypeScript, modern CSS (Tailwind, Bootstrap), semantic and accessible HTML, JavaScript, UI/UX principles and CI/CD workflows, as well as C# / .NET and Azure. I have experience with Figma prototyping and a strong interest in SEO, performance optimization and usability. I thrive on the creative side of design, where fonts, colors and spaces should work harmoniously. I always put the end user first and ensure good Universal Design. At the same time, I enjoy the technical aspects and realizing ideas through code.

"One of the best responses assessed, with very high code quality and structure." – Oliver Dipple, Noroff teacher, 2024 (final assessment/exam)

EDUCATION

Glasspaper Academy ***Dec 2025 - Ongoing (complete April 2026)***

I am currently participating in a 20-week, full-time continuing education program with a focus on Microsoft Azure, C#, agile methodologies, and secure coding. The education combines theory and practice, and includes independent work, lab exercises, and project work, as well as preparation for and completion of certifications. The certifications we will gain knowledge to pass during the program are: AZ-900 Microsoft Azure Fundamentals, AZ-204 Developing Solutions for Microsoft Azure, AZ-400 Designing and Implementing Microsoft DevOps Solutions, and AI-102 Designing and Implementing an Azure AI Solution. The education also includes project work in a team where I have the main focus on Back-end development.

Front-end developer – Noroff University – Grade A ***Aug 2022 – Jan 2025***

I completed a 2-year full-time study and developed modern front-end solutions with a focus on clean, structured and easily maintainable code.
Consistently worked according to best practices in type safety, component-based architecture, clean code and code quality. Deliverables were assessed to a very high standard, both technically and structurally, with extra attention to detail and professional execution. Experience with HTML5, CSS3, responsive design, CSS Modules, SASS and styled-components, as well as universal design (WCAG).

Work with advanced JavaScript, modular code, DOM manipulation, async/await, Promises and event-driven programming. Experience with React, hooks (useState, useEffect, useReducer, useContext), state management (Redux Toolkit, Zustand), React Router and API integration. Built complete features such as navigation, search functionality, shopping cart and checkout, with a focus on testing (unit and end-to-end), documentation and collaboration in multidisciplinary teams.

EXPERIENCE

Isopram S.r.l. - Milano – Italy

Purchasing & logistics ***2007-2016***
Purchasing department, logistics, support to ISO 9001/ISO 9100 requirements, and other office tasks. Aviation upholstery industry. In close cooperation with AgustaWestland, Finmeccanica and Mecaer Aviation Group.

Movicoop s.c.r.l. - Italy

Logistics & Inventory ***2005-2006***
Wardrobe inventory management for photo shoots. (Wardrobe Italian Elle, Marie Claire and Gioia).

SKILLS

Tools*: Visual Studio Code (VS Code), GitHub Desktop, Source tree, Figma*
Languages*: Typescript, JavaScript*
HTML-technologies: *Semantic HTML 5, CSS 3*
Front-end frameworks: *React (mainly functional components)*
JavaScript: *Vite, Npm, JSON, YAML*
CSS frameworks: *Tailwind, Bootstrap, Sass*
Source code management: *Git*
Automated Testing: *Unit Testing, Integration-testing, e2e testing, Cypress, Jest, Vitest*
CI/CD*: GitHub Actions*
REST API*: Postman, Swagger, Rest API Integration*
Others: *WordPress, Netlify, Local, UI/UX principles, GitHub Copilot, OWASP Top 10, Hotjar (User Analytics & Heatmaps), WCAG 2.1, accessibility (a11y)*

Others Skills
Database*: SQL*
Internationalization: *i18n Language support, i18Next Library*
Component library: *Storybook*
Front-end framework: *Vue 3*

Certifications and Courses: Microsoft Azure-certification
AZ-900: *Microsoft Azure Fundamentals - Credential*
AZ-204: *Developing Solutions for Microsoft Azure – Badge*
AZ-400: *Designing and Implementing Microsoft DevOps Solutions (planed)*
AI-102: *Designing and Implementing an Azure AI Solution - Badge*

Courses and further education
Agile: *method (Scrum / agile development) (planed)*
C# og .NET: *basic (ongoing)*
Secure Coding: *application security (incl. OWASP Top 10) (planed)*

LANGUAGES

Norwegian, English, Italian, Portuguese, spanish

INTERESTS

Book, IT, search engine optimization (SEO), canva.com, Travel, photography, video editing, YouTube, OBS Studio, social media, learning, food, video serie

REFERENCES (More references upon request)

«Fernanda is a sharp developer that approaches new subjects with a bright and intense focus. When faced with an unclear challenge, she takes the time to consider the problem from different angles and doesn't need an explanation to be given twice. She has shown strength with JS, APIs and front-end browser technologies. I have no doubt that Fernanda will make a great fit in any company that values initiative, or calm, clear, technical thinking. All the best on your development journey!» _ Oliver Dipple, Noroff lærer, 2024
